

JOHN BOND

UNDERTAKER

AND

LICENSED EMBALMER

TELEPHONE No. 66

*Builder and Owner of one of the Finest White
Hearses in the West.*

Mr Bond is the only licensed undertaker and embalmer in the county, and his hearse, the only one in the county, is a work of art: being an eight column, elaborately hand carved car, with rubber cushion springs, nine panels of finest plate glass, and goes over the road without a jar or the least noise. His church truck is the finest money can buy. ¶ His embalmer's outfit is second to none and he is prepared to handle the business right, and prepare and ship bodies to all parts of the world—holding, as he does, a diploma from the Philadelphia Training School for Embalmers, also a State Certificate, License and Embalmer's Permit from the State Board of Health for having successfully passed the State examination in anatomy, sanitary science and embalming.

Their bodies sleeping in their graves
 'Til the resurrection morn
Aunt Nannie, too, was called away
 When nearly eighty-seven
And everyone of us feels sure
 That she is now in Heaven
Because she kept the laws of God
 As nearly as she could
And trusted everyone she met
 As all true Christians should.
Those of her friends who yet remain
 Still hold the memory dear
And gladly meet to celebrate
 Her Birthday every year.
